

# Paediatrics

*In order to minimize the introduction of community acquired infection into the hospital, Osler's visiting policies have been changed during the H1N1 flu surge.*

- Two (2) parents, caregivers or guardians are permitted to remain with each admitted paediatric patient.
- Parents, caregivers or guardians will be required to adhere to all Infection Prevention & Control precautions when visiting patients including the use of PPE — such as masks, gloves, etc.
- Parents, caregivers or guardians must remain in the patient's room during their visit.
- Visitor/Family Lounges and Playrooms are closed.
- All persons entering or leaving the hospital are required to cleanse their hands with alcohol based hand sanitizer.
